From the West Bank:

Message from the West Bank Desk....

Hi Everyone,

Hope you all had a nice Mardi Gras!

We had some technology challenges at the start of this semester, but thankfully most of them have been solved.

I want to acknowledge some returning teachers this semester who brought students back with them: Max & Cily Winkeler, John Maggiore, Leona Toups, Anne Macaluso. Their classes have helped our enrollment this semester significantly. Also, a special thanks to Peggy Pospisil who recruited a new student to join us last semester and another new student this semester. Way To Go!!

Increasing enrollment on the West Bank remains a concern and a high priority for me.

For that reason, I'd like to remind each of you to recruit just one person each semester. The "Each One – Reach One" referral program works. It truly will help the Westbank People Program flourish.

It takes Teamwork! Together we are strong!

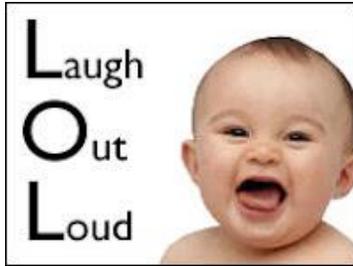

Love each of you.
Stay Blessed,

Phyllis 😊

It was in tents!

Why do ducks have feathers?
To cover their butt quacks!

What's the difference between a hippo and a zippo?
One is really heavy and the other's a little lighter.

There's a fine line between a numerator and a denominator. (...Only a fraction of people will get this clean joke.)

What do dentists call their x-rays?
Tooth pics!

Did you hear about the first restaurant to open on the moon?
It had great food, but no atmosphere.

What did one [ocean](#) say to the other ocean?
Nothing, it just waved.
